DETAILED ACTION

This office action is in response to applicant's amendment filed November 16, 2006.

Election/Restrictions

Claim 1 is directed to an allowable process. As such, claims 4 and 5 are previously withdrawn from consideration as a result of a restriction requirement are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on September 6, 2006 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Allowable Subject Matter

Claims 1 and 3-5 are allowed.

The following is an examiner's statement of reasons for allowance: applicant has established the criticality of using the claimed composition for his resist material in his specification which results in an atmospheric vapor adhered to the resist allowing for

producing good resist patterns that are uniform as shown for example in applicant's Figure 2D as compared to his Figure 7D including all the limitations of the independent claim.

In contrast, the prior shows a solvent including the claimed composition or a resist dissolved, but does not show the resist made from the claimed composition and patterned including all the limitations of the independent claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
